# The Pebbles Collection

Smoothed slowly over time in rivers and oceans, the pebble is special and distinct. Each one embodies multiple sensations and meanings, from shaping ancient tools to creating the spiritual serenity of a rock garden.

Each pebble, when held in the palm of your hand, brings back nostalgic childhood memories and a sense of grounding. Organic by design and coming in a variety of monochromes, pebbles have inspired Caesarstone's latest collection of surfaces, reflecting the warm greys and enhanced textures that are influencing interiors today.

## 1001 Riverlet™

A gentle off-white touched by honied-amber capillaries that flow softly across the surface, with a Honed finish for a tinge of freshness that reflects more light in the kitchen.

## 1002 Wyndigo™

Warm earthy gradients wash over a soft greige surface veined with foamy-greys, capturing a pebble's two-toned mottled patina that is accentuated by a Honed finish for an authentic presence.

## 1003 Raindream™

Two layers of slate-greys are accentuated by soft dark grey strokes contoured in neutral highlights, with a Polished finish that makes the surface look like a wet river stone.

## 1006 Agger Grey™

A rich two-toned base of warm smokey greys, with delicate clay undertones and white veins that create a two-toned surface, in Polished finish which adds depth.

# Colour Selection

Caesarstone® is made from natural material and therefore some variation in colour and aggregate may occur.

The colours in this brochure are to the highest standards in printing, however, should only be used as an indication of actual product design. We always recommend making a final colour selection by viewing displays of larger panels in your nearest Caesarstone® showroom or kitchen retail showroom to appreciate the movement of the design over a large surface.

# Why Caesarstone?

## Easy to Care, Simple to Maintain

We produce surfaces that are incredibly durable and nonporous, so they're virtually maintenance-free. For daily routine care please visit [caesarstone.com.au](https://caesarstone.com.au)

[View our Care & Maintenance Page](#)

Caesarstone® has received worldwide recognition for our commitment to quality, safety and environmental standards, each Caesarstone® surface meets the highest level of international standards.

ISO 9001:2000

OHSAS 18001

ISO 14001:2004

## Superior product benefits

### Non-porous

Incredibly impenetrable, dense, and resilient, for long-lasting quality

### Durable

Harder and Stronger than marble, granite and other natural stones

### Easy to Clean

Simple care with **just soap and water**, no need for sealing, and essentially effortless to maintain

### Hygienic

Nonporous, hosts no bacteria, mold, or mildew, remains safe and sanitary for ultimate cleanliness

### Stain Free

An impenetrable surface that is highly nonporous and nonabsorbent, made to be impervious to stains and **easy to maintain**

### Heat Resistant

Caesarstone® Surfaces are heat resistant, however we always recommend using a trivet for high temperatures

### Scratch Resistant

Impressive scratch-resistance strength, not susceptible to scrapes or scuffs

### Enduring Quality

Caesarstone® uses natural quartz minerals, with quality guaranteed through our **lifetime warranty**

### Ease of Installation

Easy to template, install and customize by professionals, suited for indoors and available in a selection of outdoor colours

### Environmentally Friendly

Certified for its durability and low maintenance, supporting **a healthier environment** and better use of material resources
